## SWEP India holds Dealer Conference

SWEP India recently hosted a Dealer Conference in Goa back on May 13th & 14th. Taking part were all the top dealers in India – a total of 8 dealers. The focus of this conference was for SWEP India to lay out the dealer sales growth ambition that they have for their dealers. By lending our support in the way of product & application training, we hope to help our dealer customers achieve this expected growth. Other ways SWEP would like to team up with our dealers to achieve continued growth and success is to take part in joint visits, provide market promotion material, and hold additional regional seminars.

## SWEP China participates in “Low Carbon Life: We are together” activity

On Thursday, June 14th, the SWEP China Sales Team took part in a very important event that was held at the Jincheng neighborhood center, located at Suzhou Industrial Park, China. This social community activity allowed the SWEP China team to combine team building and CSR (Corporate-Social-Responsibility) together. Awareness of a low carbon lifestyle and being environmentally friendly were themes that were stressed during the event.

## SWEP BPHEs increase efficiency in Sirius Laboratory in Brazil

Twenty-eight (28) of SWEP's P80H models were used as economizers in the TurboTrans Oil Free Smardt chillers that were installed to provide the cooling at the cutting-edge Sirius laboratory being constructed in Campinas, Brazil.

When completed, it will be the largest and most complex scientific infrastructure ever built in Brazil and one of the first 4th-generation Synchrotron Light Sources in the World. The Synchrotron particle accelerator will allow the study of tissues and materials at the atomic level. This information will be used in the future research of currently incurable diseases, new engineering materials, protein testing (DNA), and many other applications that benefit society and humanity.

## SWEP's APAC sales team donates to local orphanage during visit

The inaugural non-China APAC Sales Team Meeting was held June 26th-29th in Malaysia. Colleagues from four corners of the continent – from India to Oceania and Japan to ASEAN – travelled thousands of miles to converge in Sunway which is located 20 minutes from the SWEP Kuala Lumpur plant.

However, it wasn't just business discussions that this meeting entailed. SWEP's APAC Sales Team also participated in a community involved event in which they visited a non-profit NGO Orphanage in Malaysia and donated food and beverage items for the members there during their visit.

## SWEP NA Successfully transitions to the 2015-9001 Quality & 14001 Environmental Standards!

Congratulations to the employees of SWEP North America on the successful transition to the 2015 9001 Quality & 14001 Environmental standards. Their commitment to this implementation resulted in zero findings and zero observations. Compliance and use of these standards provide SWEP with a firm foundation on which we can continue to grow and provide our customers with a high quality product while also protecting the environment.
